

## SPECIFICATION SHEET

### HOT TANK POWDER CLEANER FOR FERROUS METALS

#### **Product Description**

Wildcat Ferrous Metal Cleaner is a powdered caustic hot tank cleaner formulated for removing rust, carbon, grease and oil and for stripping paint. It is used by mines and by metal fabrication, plating, heavy equipment and engine rebuilding shops to remove rust and clean metal prior to painting or plating.

#### **Directions for Use**

Slowly add Wildcat Ferrous Metal Cleaner to a partially filled container of cold water. Stir constantly. Do not add powder in large quantities. Do not add to hot water. Use at 3 to 8% concentrations at 82 to 98°C (180 to 200°F). Contact time ranges from 30 minutes to 8 hours, follow with a fresh water rinse.

#### **Physical Properties**

Appearance	off white powder
Odour	odorless
pH(1%)	12.0-13.0
Spec. Gravity	Not available

#### **Features**

- Good Hard Water Tolerance
- Contains Biodegradable ingredients
- Contains penetrants and dispersants
- Low foaming
- Good Rinsing

#### **Benefits**

- Leaves a clean, film free surface
- Minimal Environmental impact
- Effectively removes inorganic soils, greasy and oily soils
- Minimal scale build up

#### **Notes**

Wildcat Ferrous Metal Cleaner is safe on all ferrous metal only. It will adversely affect non ferrous metals like aluminum, brass, copper and painted surfaces. Please refer to Material Safety Data Sheet for disposal and handling procedures.

**Disclaimer:** The product information expressed above is only based on in house and practical field testing. Therefore, the parameters experienced in actual usage are beyond our control. Any recommendations are made without any warranty, either expressed or implied. Manufacturer's and Distributor's only obligation shall be to replace any defective product. Neither shall be liable for any loss, damage or injury, direct or consequential, arising from the use of this product.
